Discretionary Selection Policy:

USANS may select additional athletes to the team using discretion based upon factors other than the objective criteria. If the staff fills any spot(s) on the team with discretionary selections, then the staff may consider any factors including (but not limited to) the following:

- Achievement of individual results and goals, as set forth by the USANS coaching and high performance staff and as approved by the USANS Ski Jumping team staff, USANS CEO and U.S. Ski & Snowboard Chief of Sport, which point toward the achievement of competition results consistent with USANS program goals.
- Attitude and commitment of athletes to take part in the complete camp and competition program.
- Illness or injury during the Selection Period.
- Indication of medal potential in future Olympic and World Championship competitions, which would be materially enhanced by selection to team.
- Other unanticipated failure of objective criteria to select an athlete likely to achieve competition results consistent with the U.S. Ski and Snowboard program goals.
